Reasons for allowance

1. The following is an examiner's statement of reasons for allowance:

The present invention is directed to a digital recording/playback apparatus. Independent claim 13 identify the uniquely distinct feature "wherein the playback control means, when the read start position is set at the leading frame position of the second-type data block as the sub, refers to time stamp information recorded in the first-type data block as the main, determines the second-type data block having the smallest time difference from a time indicated by the referred time stamp information, and further comprises a buffer memory for storing the stream data corresponding to a first data block and a second data block read from the data storage means and an information table storing buffer addresses and time stamp information corresponding to the first data block and the second data block stored in the buffer memory." The closest prior arts Kawai (US PG PUB 2001/0033581), Kikuchi (US Pat. No. 6,606,715), Aoki (US Pat. No. 6,009,231), Ahmad (US Pat. No. 6,005,564), Willis (US Pat. No. 6,154,603), Parvin (US Pat. No. 6,167,465) either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
